

# THE IMPORTANCE OF ARTS INTEGRATION IN SCHOOLS

"...the arts are inseparable from the very meaning of the term 'education.' We know from long experience that no one can claim to be truly educated who lacks basic knowledge and skills in the arts."

-National Standards for Arts Education

## WHAT ARE THE BENEFITS OF AN ARTS INTEGRATION PROGRAM?

Blending what happens in the art room with what happens in other classrooms has many positive impacts for your students and your art program:

Art is seen as an integral part of the curriculum by staff and admin.

Students acquire a deeper and broader knowledge base.

Students find learning more enjoyable, and therefore are more engaged.

Students gain a sense of self-esteem in their ability to learn new information.
