

# 3 Ways School Districts Use FLEX Curriculum

*FLEX can support any district's curriculum adoption needs, regardless of the size of the district or what the review process looks like.*

## SUPPLEMENTAL

The district doesn't have a set curriculum or review process. Teachers are autonomous as long as they are meeting state and national standards.

FLEX is supplemental, enhancing what teachers already teach in the classroom and allowing them to search by content type or standard to round out their curriculum.

## REFRESHER

FLEX can help keep the curriculum relevant from year to year with new materials (lessons, assessments, artist bios, vocabulary lists, student worksheets, student reference guides, student facing videos, and more) released each month. As the library of resources grows, teachers are able to refresh their curriculum and stay current with changing trends in the field.

## COMPLETE ADOPTION

It's curriculum adoption time, and it can be overwhelming to start from scratch and reimagine curriculum for the district. The time and finances it takes to develop materials after a curriculum review process is often underestimated.

FLEX offers a complete library of materials to drive curriculum review while still giving teachers autonomy to design a custom curriculum. Bundle FLEX Curriculum with PRO Learning for ongoing professional learning to support the curriculum.
